SUMMARY

Full Stack Developer with hands-on experience in building scalable and responsive web applications using React.js, Next.js, Node.js, Express, MongoDB, and Firebase. Skilled in API integration, Agile development, and UI/UX design. Passionate about problem-solving, open-source contributions,

WORK EXPERIENCE

Frontend Developer Intern, Code Inbound LLP   november 2024–January 2025
- Developed the frontend of a Network Monitoring web application using React. - Designed and implemented responsive UI components for real-time data visualization. - Collaborated with the development team to ensure seamless API integration. - Participated in Agile sprint planning and maintained clean, modular React code.

Frontend Developer, Zylentrix   February–August 2025
- Spearheaded the development of web applications that support DigiZign's digital marketing services, enhancing client engagement and conversion rates. - Collaborated with marketing teams to integrate SEO, PPC, and content strategies into web platforms, resulting in a 250% average ROI increase for clients. - Implemented real-time analytics dashboards using React and Next.js, providing clients with actionable insights into campaign performance. - Optimized application performance, reducing load times by 30% through code-splitting and lazy loading techniques.

Full Stack Developer, Campaign Harvest   September 2025–december
- Developing and maintaining both mobile and web applications to support the company's digital campaign operations. - Utilizing technologies such as React, Node.js, Express, and react native for end-to-end product development. - Collaborating closely with cross-functional teams to design scalable architectures and improve user experience. - Integrated APIs and optimized performance across platforms to ensure smooth data synchronization.

PROJECTS

Cine AI – Movie Recommendation
React, Gemini API, IMDb, Firebase — Live Demo - AI-powered movie recommender using dynamic prompt generation. - Firestore stores user queries, preferences, and recommendation history. - Implemented real-time search with efficient data fetching and caching.

Hotel Booking System
React, Node.js, Express, MongoDB — Live Demo - Full-stack application with role-based authentication (Admin/Customer). - Real-time room availability, booking confirmation, and cancellation. - Implemented secure REST APIs and JWT-based authentication.

Blog Application
React, Node.js, Express, MongoDB — Live Demo - Complete CRUD functionality for posts, comments, and user management. - Admin panel for moderating content and analytics dashboard. - Responsive design for seamless experience across devices.

interview-schedule-web-app
React, Node.js, Express, MongoDB — Live Demo Developed a full-stack interview scheduling platform using React, Node.js, Express, and MongoDB with CRUD functionality for posts, comments, and user management. Implemented an admin panel for content moderation and an analytics dashboard to track user engagement and platform performance.

EDUCATION

MCA, Visvesvaraya Technological University, Bangalore   2024— CGPA: 8.4/10
BCA, Vinoba Bhave University, Hazaribagh   2022 — CGPA: 7.67/10

TECHNICAL SKILLS

Languages: JavaScript, java, HTML5, CSS , Dart(Flutter)
Frontend: React.js,React native, Next.js, Tailwind CSS, Material UI
Backend: Node.js, Express.js, Firebase, MongoDB, MySQL,SQL lite
Tools: Git, VS Code, Postman, Vercel,
Others: REST APIs, JWT, Responsive Design, Agile Methodologies
